

Exercise Physiology Program (BS8122) Application

To be admitted into the Exercise Physiology major, all students must apply and be accepted after successful completion of nine courses (C or better in each) and achieving an accumulative g.p.a. of 2.0 or higher. Students are advised to make a decision about a major as early as possible in order to apply to the program in a timely manner.

For Exercise Physiology Pre-majors:

The completed application and a current DARS report (or transcript documenting grades received for transfer courses) must be submitted by the end of the **second week** of the quarter following completion of the admission requirements to the Exercise Physiology coordinator. **Be sure to obtain your faculty advisor's signature prior to submitting your application.**

For All Other Majors:

The completed application and a current DARS report must be returned to the Exercise Physiology program coordinator by the **seventh day** of the quarter, following completion of the admission requirements.
